

Example of interleaved image-text documents:

....., . There are many different standards of analog video. Most are conceptually similar, but they have varying numbers of signal channels, , They are all based on the analog signal(s) drawing the.....

How to utilize interleaved text-image documents for VLP?
How to enhance VLP with real-world knowledge?

Blue's Truck

Interleaved text-image documents are a popular format for visual question answering (VQA) systems. In this example, the image shows a blue semi-truck with a silver tanker trailer parked on a street with palm trees in the background. The text describes the truck's features, including its color, size, and the type of trailer it is pulling. The text also mentions that the truck is a "Blue's Truck" and that it is a "Blue's Truck".

Blue's Truck

Blue's Truck

Interleaved text-image documents are a popular format for visual question answering (VQA) systems. In this example, the image shows two people sitting at a table outdoors, possibly in a market or cafe setting. The text describes the scene, including the people's actions and the environment. The text also mentions that the scene is a "Blue's Truck" and that it is a "Blue's Truck".
